Assume a relation $Q \subseteq \mathbb{N} \times \mathbb{N} \times \mathbb{N} \times \mathbb{N}$:

$$\forall i, acc \in \mathbb{N}.[\ \ Q(i, i, acc, acc)\ \ ]$$

$$\wedge$$

$$\forall i, cnt, acc, p \in \mathbb{N}.[\ \ Q(i, cnt+1, 2*acc, p) \quad \Longrightarrow \quad Q(i, cnt, acc, p)\ \ ]$$

$$\Longrightarrow$$

$$\forall i, cnt, acc, p \in \mathbb{N}.[\ \ (i, cnt, acc) \Downarrow_M p \quad \Longrightarrow \quad Q(i, cnt, acc, p)\ \ ]$$
