

Memory Ordering for RMW:

<code>x.fetch_add(1);</code>	Sequentially consistent load and store
<code>x.fetch_add(1, std::memory_order_relaxed);</code>	Relaxed load and store
<code>x.fetch_add(1, std::memory_order_release);</code>	Relaxed load, release store
<code>x.fetch_add(1, std::memory_order_acquire);</code>	Acquire load, relaxed store
<code>x.fetch_add(1, std::memory_order_acq_rel);</code>	Acquire load, release store
